HOW TO SPECIFY

1. **Choose** the species and profile.
2. **Confirm** sizes and lengths with our team.
3. **Ask** for samples.
4. **Order** through your stocking dealer or us.

INSTALLATION AND CARE

- Use stainless steel fasteners: the wood is slightly acidic.
- Leave a ventilated, drained cavity behind exterior cladding.
- Seal cut ends when the boards are pre-finished, to hold the colour.
- Left unfinished, it weathers to silver grey; moisture drives the change.

COATINGS

ThermoCraft takes paints, oils (not linseed) and waxes. Follow the coating maker's guidance.
