Bringing Wood Science to Wood People

CLEAR SOFTWOOD

Radiata Pine.

ThermoCraft™ Radiata Pine

Clear	8 to 18 ft	Imbue	New Zealand
FLAT GRAIN	LENGTHS	PRODUCER	ORIGIN

WHAT OUR TEAM KNOWS

We know where Radiata Pine fits.

Radiata Pine is a clear, flat-grain softwood grown in New Zealand's plantation forests. Our team offers advice to you, your builders and your specifiers on grade, profiles, fasteners and coatings.

FOR YOUR BUSINESS

A clear-grade line for cladding, soffits, decking and interiors that you can stock and sell, with our team behind every question your customers ask.

HOW WE SUPPLY IT

Milled ThermoCraft boards and profiles, made to our grade specs, in lengths and packs set to your program.

RADIATA PINE CLADDING

DISTRIBUTORS AND DEALERS

Stock ThermoCraft Radiata Pine.

Ask our sales team what's available.

	Decking	5/4 x 6, 5/4 x 8

Sections are schematic. Confirm net sizes and stock with our team.

Custom profiles on request. Talk to our sales team.

RADIATA PINE CLADDING

HOW TO SPECIFY

1. **Choose** the species and profile.
2. **Confirm** sizes and lengths with our team.
3. **Ask** for samples.
4. **Order** through your stocking dealer or us.

INSTALLATION AND CARE

- Use stainless steel fasteners: the wood is slightly acidic.
- Leave a ventilated, drained cavity behind exterior cladding.
- Seal cut ends when the boards are pre-finished, to hold the colour.
- Left unfinished, it weathers to silver grey; moisture drives the change.

COATINGS

ThermoCraft takes paints, oils (not linseed) and waxes. Follow the coating maker's guidance.
